

## Leaf Trap & Floating Chlorinator

The CMP Leaf Trap features a twist-on lid with a quick-action release button for easy access cleaning. A 9" length of vacuum hose (male x male) is included with each unit. The trap features 1.5" hose connections at each end with a female port on the lid and a male port on the body. The heavy-duty integrated handle is molded on making the CMP Leaf Trap the most durable on the market for both service and retail!
